

Evesham Municipal Utilities Authority Payment Plans

The EMUA now offers payment plans to assist customers with their past due water/sewer accounts.

How does the payment plan work? Customers are required to make an initial payment of 25% of the total past due balance. The remaining balance will be divided into a maximum of six equal monthly installments. Late charges will continue to bill monthly while the payment plan is in effect. The monthly installments commence on the 15th of the following month or the closest business day prior to the 15th after entering into a payment plan. If your past due balance is over \$1,500, a twelve month payment plan is available.

Contact the EMUA at 856-983-1878 for more details.
