

EVESHAM

MUNICIPAL UTILITIES AUTHORITY

During this unprecedented time, it is even more important to do what we can to contribute to the health and wellness of our community. Something we can all do:

DO NOT USE YOUR TOILET AS A TRASH CAN. Toilet paper is flushable, but other products like paper towels, tissues, and any materials not designed to be flushed will cause system blockages. The EMUA, as always, is committed to providing the highest quality drinking water and wastewater disposal services no matter the situation. During this time, the EMUA is adjusting staffing and personnel in order to help control the spread of COVID-19, making it even more imperative that we make an effort to limit these types of blockages and system disruptions.

This photo below was taken today. This is the inside of a pump that had to be taken apart due to the blockage created by flushable wipes and materials not designed to be flushed down the toilet. Please remember, **ONLY toilet paper should be flushed down the toilet.**

Office Location

100 Sharp Road • P.O. Box 467 • Evesham, New Jersey 08053
